

Engineer Test and Measurement

Hangsheng Technology GmbH

Hangsheng Technology GmbH in Berlin is a subsidiary of Hangsheng Electronics Co., Ltd. (HSAE) with headquarters in Shenzhen, China. As a principal supplier of automotive electronics HSAE is a worldwide operating tier-1 with more than 4.500 employees. The Research and Development Center in Berlin develops products for the rapidly advancing areas of automotive connectivity and security.

Your Responsibilities

Join us as an Engineer for Test and Measurement! We are looking for dedicated and talented developers to support our plans for the future. Our growing international team is highly-motivated and progressive. If you get excited about testing new things and modernizing existing things and you are not daunted by the challenge of building something from scratch, then our team might be your next career step.

Your tasks:

- You are responsible for hardware and software product validation.
- You are part of a team which is in charge of automotive product verification and provides evidence of both conformances to international standards, internal and marketing requirements.

Our Requirements

You have a degree in electrical engineering, computer science, telecommunications or a comparable qualification. You have at least three years of professional experience in embedded and automation testing, preferably in the automotive field.

You have a solid background in:

- Embedded operating systems (e.g. Embedded Linux, RTOS)
- Programming languages C, C ++, Assembler and scripting languages such as Perl, Python or Bash
- Jenkins and version control tools such as Git, SVN
- Raising bugs using tools like Bugzilla, DCT etc.
- Test driven development and continuous integration
- Hands-on experience in a Linux environment

Your personal skills include:

- Ability to work in an interdisciplinary multi-cultured team
- Independent and self-organized work attitude contributing to team success
- Quick learner and creative thinker
- Structured thinking and communication
- Orientation towards problem solving and quality
- Fluent English, German is a plus

We offer

- Team oriented working climate in a dynamic international team

- Cosmopolitan environment in the city-center of Berlin
- Full time permanent contract
- Opportunity to work on a broad variety of subjects
- Fast personal development and a steep learning curve
