

Blue Sky Coming

The future is in smart, electric and autonomous vehicles, and we aim to lead the way.

NIO is a global start-up founded in April 2015. Our core values vision, action, honesty and care are reflected in our workplace, our culture and our products. We're searching for people who share our values and bring diverse perspectives, domain expertise and life experiences; people who think big, and are as passionate about our mission as we are.

At NIO, you will work with us to rewrite the future and enjoy a world of endless opportunity; the collaborative culture and exhilarating energy of a start-up all backed by some of the smartest innovators in the technology and automotive industries. Join us on our journey, to redefine what's possible, and create an entirely new paradigm in automotive technology.

Development Engineer – Materials & Process (m/f)

Your tasks:

- Lightweight concept development for diverse subsystems of electric vehicle with focus on multi-material concepts
- Concept initialization and evaluation for diverse lightweight materials and process technologies
- Defining materials selection, joining technology and carbon composite process technology according to project guidelines
- Responsible for the material testing program plan, organization and management
- Guidance of prototyping and the corresponding design validations

Your qualifications:

- University Degree (including FH) majoring in Lightweight, Vehicle, Composite or Mechanical Engineering
- 5+ years' work experience in carbon composites
- Solid knowledge of carbon composite ranges from fiber, resin and bonding materials
- Familiar with testing standards and methods of carbon composites
- Knowledge of CATIA
- Knowledge of CAE methods
- Ability to apply innovative and systematic work ethic to highly challenging tasks
- Independent, logical and goal orientated working style
- Flexible and highly motivated for international projects
- Fluent English and German

Location: Munich

Start date: asap

Type: Full-time

This is what we offer:

- Work in a dynamic and inspiring atmosphere among international, talented and driven colleagues
- Possibility to help set up and have an impact on the organization
- Innovation strength and flat hierarchies
- A competitive compensation and benefits package
